EACH BRICK ADDS CHARACTER

Artcotta Tuğla is at the forefront of brick production via craftwork, vacuum press and vertical press across Europe and the UK. We offer a power product range with a wide spectrum of colors and various brick dimensions to help our customers build their dream buildings. We steadily expand our range of products by striving to provide high quality products to meet customer needs. Artcotta Tuğla pays much attention to meticulous quality control at every stage of the production, ensuring that any brick released to the market meets the high standards.

Having specialized particularly in hand-made clay brick and furring brick production, our company is marked by the unique products that offer aesthetics and durability at the same time. We produce every brick meticulously and by traditional means, and thus adding character to every project. We offer customized solutions based on our customers' needs and preferences, and always maintain high-quality standards.

We care about sustainability and low greenhouse gas emission policies by designing our production process with an environment-friendly approach.

Our primary objective is to boost the value of buildings and make your dream projects come true with the types of bricks that are featured by aesthetic appeal and long term use.

Artcotta Tuğla is audited by Sedex, an international audit company, and has high standards in terms of sustainability and ethical supply chain.
